

Comsewogue School District Website FAQ

Below are some frequently asked questions about the Comsewogue School District websites. If you have a question that is not answered here, please email webmaster@comsewogue.k12.ny.us and we will be happy to assist you.

How can I easily switch between any of the Comsewogue Websites?

No matter which of the Comsewogue websites you are on, you can easily switch between them by using the “Select a School” link in the top-left corner of the website. A dropdown menu will appear after clicking on it with links to the Main District Website and all six (6) building websites.

Where can I find the A/B Day Schedule for the High School and Middle School?

On the High School Website and JFK Website, the A/B Day rotation is on the right side of the home page, which updates daily and automatically. Elementary schools do not have an A/B Day rotation.

Please note that the A/B schedule is affected by emergency closings (such as Snow Days) and will be adjusted on the High School and JFK calendars as needed.

Are there bell schedules for the High School and Middle School on their respective websites?

Yes. Bell Schedules can be found under “School Info” on the High School website, and under “Parent Info” on the JFK website.

Where can I find phone numbers, principal’s information and school hours?

Each of our building websites has a “School Info” tab that provides all of this information.

Can I search one of the websites?

Yes. There is a search bar located in the top right hand corner of all of our websites.

Where can I find Athletic games/contest dates and locations?

On the main district website, under the “Athletics” tab, choose “Athletic Calendar.” Here, you will find athletic games/contests, locations, opponents and times for our games. At the top of that calendar, you can also search to narrow the information you are looking for.

Why aren't all teacher websites linked to the school websites?

Our teacher websites must be WCAG 2.0 ADA compliant, just as our district and school websites must be. Therefore, if a teacher website does not meet the proper accessibility standards, it cannot be linked to our main district or building websites.

Some teachers have converted their websites to meet the proper accessibility standards, while some have not. However, some teachers have provided links to their own personal websites in their Google Classrooms. If a school has a teacher with an accessible teacher website, it can be found by going to the correct school's website.

Why can I not access links to MySchoolBucks, Follett Destiny, Naviance or Core Commerce directly from the District Website?

As a school district, we must ensure that our third-party vendors' websites also meet WCAG 2.0 AA ADA compliance. Until their websites meet these standards, we cannot directly link to their websites. If you need a link to the direct website of one of these programs, please contact webmaster@comsewogue.k12.ny.us and we will be glad to assist you.

Where can I find grade levels, departments and email addresses for teachers?

The staff directory for each building provides teacher names, email addresses, and the grade(s) they teach or department(s) they are a part of. It is also possible to filter the staff directory on any given website to sort teachers by grade

For security purposes, we do not post room numbers in the staff directory.

Why can we not post building maps and floor plans on our websites?

For security purposes, we cannot post an internal map or building floor plan of our schools on our public websites.

Where can I find a list of District Administrators and their contact information?

Contact information for District Administrators can be found on the Staff Directory on the Main District Website. Access this directory by clicking directly on the "Staff" tab on the yellow navigation bar, or going under the "District Tab" on the navigation bar and choosing "Staff Directory" from the dropdown menu.

The same information found in the staff directory is also provided under "Departments" on the district website, where you can look up information for a single department.

Is there a calendar summary on our website?

Yes. Under the "District" tab, scroll over "Calendars," and then click "2019-2020 District Calendar and Summary." The first page is a grid view of the entire school year with days the district is closed, and the second page provides a more detailed description of each day off.

Can I search a calendar for a specific event?

Yes. If you go to any of our calendar pages, whether it be on the District Website or one of the Building Websites, you will find a search bar directly above the calendar where you may search for events.

Please note that searching for calendar events using the search bar at the top of the website will not provide valid results.

Where can I find Board of Education Meeting Agendas and Minutes?

Under the "School Board" tab on the Main District Website, you can click on the "Board Documents" link to find Board of Education Meeting Agendas and Board of Education Meeting Minutes.

Is information about the Bond posted on the website?

Yes. Under the "School Board" tab, you will find a link that says "Bond Proposal." Hoering over this link will provide you with many resources about the Bond, including a Fact Sheet and all of the numbers and figures.
